

### Kasper Faunafood P40 pigeon food, power food for pigeons

The supplementary Kasper Faunafood P40 pigeon food is a high-performance food containing over 40 essential natural nutrients. It is an ideal power food to make up any nutritional deficiencies, large and small, in all pigeons.

### P40 pigeon food is the result of many years of intensive research. Within just a few weeks, you will notice:

- a significant increase in vitality
- an increase in muscle power and stamina
- an increase in resistance to infectious diseases

### The pigeons have/maintain:

- top condition under the most varied conditions
- a significant increase in fertility
- a successful increase in growth
- better colour and plumage
- full development of all hereditary characteristics

For many pigeon fanciers, Kasper Faunafood P40 Pigeon food is a 'wonder food' but it is not a substitute for proper nutrition. You will see what appropriate use of modern nutritional science in addition to proper nutrition can do for your pigeons!

### Feeding advice:

- Gradually (a week to 10 days is usually sufficient) replace 1/4 to 1/3 of your normal mix of pigeon feed with P40 Pigeon food
- Fresh drinking water and grit should be available at all times
- Feed P40 Pigeon food all year round, but make the mix a little richer if you think your pigeons need it e.g.
  - a few days before mating
  - while rearing young
  - during moulting
  - before and after a long flight
- Since the composition of P40 Pigeon food makes it an ideal supplement, you can simply feed a basic mixture of healthy corn, beans and/or peas. 2 to 3 parts mixed with 1 part P40 Pigeon food will give excellent results.
- Young pigeons grow faster thanks to P40 Pigeon food and often have to be ringed a few days earlier.
- No need to add vitamin preparations.

P40 Pigeon food is ideal for periods of extreme exertion.

### Ingredients:

Yellow maize, wheat, ext. soya bean meal, maize glutenmeal (ca.60% raw protein), brewers yeast, glucose, alfalfameal, barley, aniseed, soya oil, dairy products (ca. 1%), vitamin and mineralsupplement.
