

6167 FLAMINGO FLOATING BREEDING

COMPLETE FEED FOR FLAMINGOS

This product floats and is intended for use by breeding animals. The pellet should be provided approx. six weeks prior to the breeding season. The older animals feed the young flamingos for four months. During this period, given its enhanced mineral and trace element content, we recommend feeding the flamingos the Flamingo floating production pellet to which cantaxantine has been added.

Recommended daily feed intake: 150 g per animal

Composition: Cereals, (Products of) Fish and aquatic animals, Products of oil seeds and oleaginous Fruits, By-products of cereals, Minerals, Products of other plants, Fermentation (by-)products from Microorganisms, Products of algae, Oils and fats.

Analytical constituents:

Crude Protein	30,0%
Crude Fat	6,0%
Crude Fibre	4,0%
Crude Ash	17,0%
Lysine	2,0%
Methionine	0,9%
Calcium	3,6%
Phosphorus	1,8%
Sodium	0,7%

Nutritional additives (/kg):

3a672a Vitamin A		25000	IU
E671 Vitamin D3		3000	IU
3a700 Vitamin E (all-rac-alfa-tocopheryl acetate)		250	IU
E4 Copper (Copper(II)sulfate pentahydrate)	19	mg	
E1 Iron (Iron(II)sulphate monohydrate)	38	mg	
E5 Manganese (Manganese(II)oxide)	125	mg	
E6 Zinc (Zinc sulphate monohydrate)	75	mg	
3b201 Iodine (Potassium iodide)		2.5	mg
E8 Selenium (Sodium selenite)	0.3	mg	

Additifs sensoriels (/kg):

2a161g Canthaxantin 22.5 mg

Contains fishmeal: Not suitable for feeding it to ruminants.

Packing: 15 kg

Storage: In a cool and dry place

Product form: extruded ø 5 mm
