AKWAVIT

AKWAVIT BASIC LIQUID

Product code: 6911

Feed supplement for fish-eating animals. Contains vitamin E as antioxidant to enhance resistance and health. Contains thiamine vitamine B1 to prevent thiamine deficiency. This is particularly important when feeding the animals dead fish, as decomposition enzymes are present that specifically target thiamine. Thiamine should be provided daily in the feed to prevent any shortfall and any subsequent attack on the central nervous system.

Akwavit Basic Liquid comes in the form of a fluid.

Complementary feed for fish-eating mammals and birds. Akwavit Basic Liquid contains the Vitamins E and B1.

Directions for use:

Feed the animals by injecting the liquid into the feed fish.
